History

Our story begins in 1996 as a very high-end home textile producer. Since then, thousands of people have worked around the company's looms, weaving their different ideas and projects.

Today, one can sum up this rich narrative in two concepts: innovation and creativity. El Kafoury produces home textiles and accessories, for both commercial, residential interiors and hospitality treatment fabrics for passing test UL/American code standards.

We supply professionals with high-quality fabrics and set the industry standard for interior fabrics in residential and contract settings. We offer various weaves – plains, textures jacquards, and printed fabrics in narrow and wide widths for use as curtain fabrics, transparent and semi-transparent sheers, upholstery, and dual-purpose fabrics. Our range of functional fabrics covers blackout and dimout curtains and acoustic fabrics and fabrics for the outdoors. El Kafoury fabrics meet the customers' demand for the most recent stage in interior textiles, incorporating the newest ideas and features. We offer our customers impeccable service. Throughout the design process to product design, selection, and production. Our team provides support every step of the way.

Innovation

We control the vertical production process, from yarns to weaving and finished fabrics. We can combine new technologies and creativity to consistently meet the highest expectations regarding sustainability, quality, comfort, security, and durability. We ensure that every product we deliver is rigorously tested and guaranteed to meet your expectations.

Exclusivity

As a result of the in-house vertical production capabilities, El Kafoury is flexible in exclusive custom colors and specially tailored textures and designs. We offer our customers design exclusivity and color exclusivity on all patterns and qualities.

Fabrics Library

Our extensive fabric library includes thousands of designs archived from day one until the latest developments. You can also browse through our latest collections in the El Kafoury Testing We have extensive in-house yarn and fabric testing capabilities and use internationally accredited testing Fabric Library laboratories for special performance testing. We support our customers in all test requests according to region-specific and project-specific standards. Our collections present an extensive, highly diverse variety giving the user choice of a myriad of designs and colors that can be transformed into numerous interior atmospheres, covering a wide range of budgets.

Collection Concepts

We follow the newest trends and innovations in the field of interiors to make our concepts. We listen to our customers' Sampling We provide a comprehensive sampling service for our customers from color, design, and quality sampling for editors and wholesalers to tailored contract business sampling for projects. We provide sampling lengths to customers as well as fabrics for mock-up rooms. We also support our customers in their sampling material needs for collection books and hangers. Needs and develop further to weave the ideas to quality fabrics. Our customers profit from our creative and original research and inventive development; we guide and help in finding the correct concept and products for each brand and market.

Value Engineering

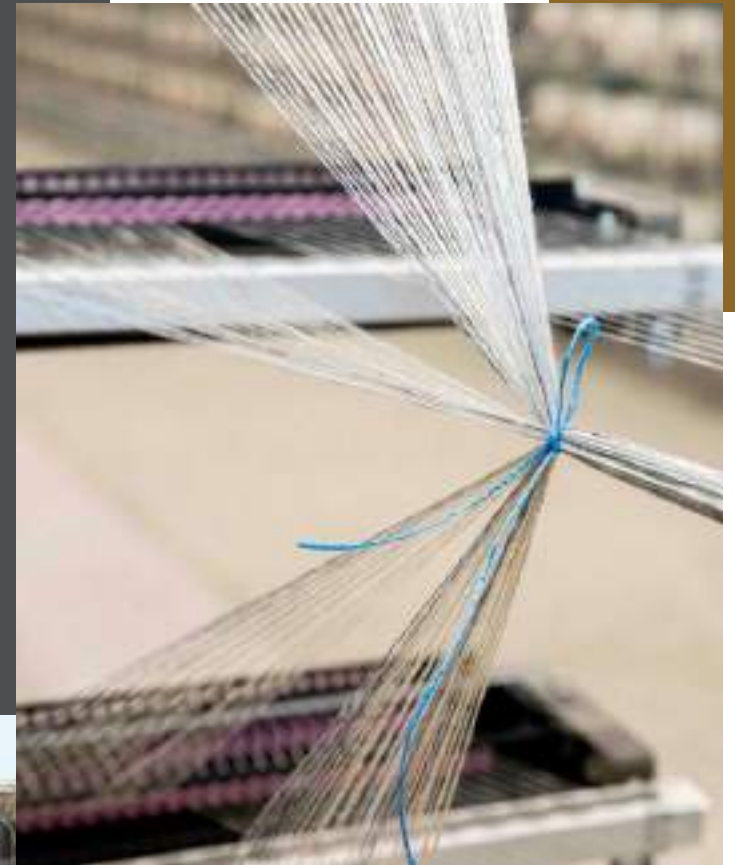

The El Kafoury in-house design team supports all customer requests, be it novel sustainable solutions, innovative functionalities, distinctive patterns, collection concepts, and collections. Support & Sales of novel color palettes. Our creative team is constantly seeking new yarns, techniques, and finishes following the latest trends and innovations while developing new qualities and collections.

Factory

Our vertical production processes enable tailor-made manufacturing, increased resource efficiency, and total supply chain control. This all-encompassing approach is our guarantee of delivering the highest quality product.

“Our passion is to create new fabrics, to generate emotions never felt before.”

WHAT WE DO

Our expertise covers all processes - from yarn dyeing and preparation, weaving, piece dyeing, finishing, pleating, and digital and screen printing to readymade products. Our wide range of services allows us to offer a diverse range of products on a global scale - from residential living spaces to contract projects.

We Design

We strive to develop products of high quality that enrich people's lives. Our products reflect our commitment to color, quality, simplicity, and innovation. We consistently push the aesthetic, technological, and functional properties of textiles. We are pioneers, always in motion and open-minded towards design and cooperation. Our approach to product development is defined by collaboration, curiosity, knowledge sharing, responsibility, and consideration for the environment. Our work is never fully accomplished creating textile inspirations means to continually evolve. At our design studio in Bursa with 30 designers and engineers, we compose and develop products to impress with their visual quality, functionality, and added value. In doing so, we leverage many years of experience, recognize fashion trends right from the start and if possible, make your wishes come true.

See New Jacquardtex Quality Standard for further information, please contact us. |
| Product usage: |  |

Dimout

El Kafoury Dimout effectively blocks the light from entering the room and features an elegant drape with a wide range of performances. As a standard, up to 99%, if needed, heavier fabrics up to 100% and lighter Dimout fabrics reduce the standard light transmission from 40 % to a minimum of 1%. They meet the highest requirements namely flame resistance, applicability, color and lightfastness, durability, and wear resistance. During the day, this excellent fabric quality produces a pleasant diffuse light. At night it carefully absorbs every ray of daylight. Printing in matching dark colors on the back of the fabric can increase the darkening effect. El Kafoury Dimout fabrics collection provides versatile possibilities: plain, textured, jacquard-woven fabrics or printed in graphic or floral designs. Double-sided printing of varying designs doubles creativity.

Jacquard

Jacquard fabric features complex patterns woven on a jacquard loom. Jacquards are available in various designs, compositions, and weights. While the pattern options are unlimited. From fancy botanicals and complex brocades to classic stripes, florals, damasks, or conventional patterns.

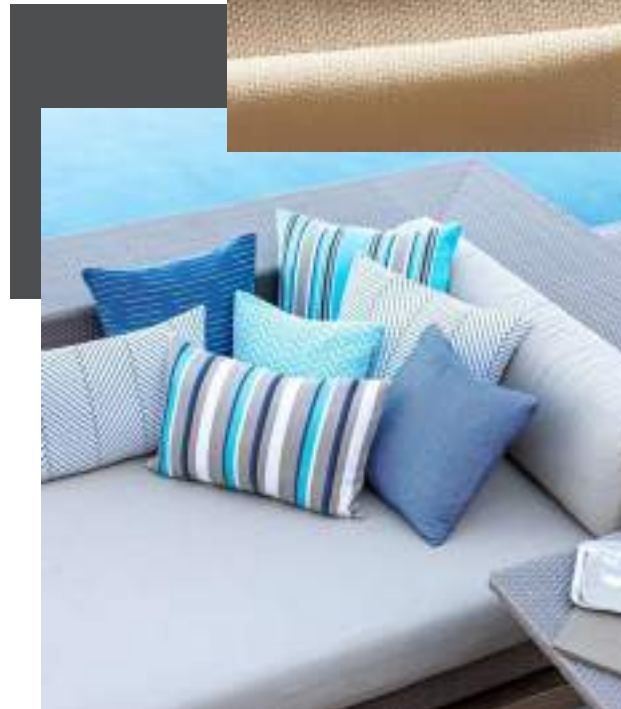

Valvet

Velvet upholstery fabric is made up of 100% polyester and thus is quite durable. While the “piles” on its surface still make it extremely soft and warm. An interesting part of polyester velvet upholstery fabric is the the direction in those fibers of the “pile” lie and the light is reflected differently depending on the direction of the fibers.

Out Door Fabrics

The exclusive El Kafoury Outdoor collection marks a new chapter for outdoor settings featuring all the most crucial easy-care and durability characteristics expected for outdoor use and challenging spaces indoors. We weave our outdoor fabrics from solution-dyed acrylic and olefin yarns. Solution-dyed fibers are artificial fibers in which the pigment is added to the polymer-solvent before extracting the fibers. As a result, bright, deep, and superior colors fastness over a long period, even in bright sunlight. The carrot and cucumber comparison demonstrates the difference between yarn-dyed and solution-dyed fibers. Carrot is colored throughout, while cucumber's color only is on the surface.

Anti-Bacterial Fabrics

100% Terry Cotton

We are a professional manufacturer and customize the hotel bedding & towels with many years of production experience, advanced technology, exquisite processing equipment, and strict quality assurance.

Our Certificates
